Another Candidate.

Nearly every week we hear the name of a new candidate who will come out to defeat Governor Ellerbe's re-election. The last name that we have noticed is that of the Hon. George D. Tillman, who, if he runs, will run as an anti-dispensary candidate. That fact of itself will likely ensure his defeat. In the opinion of this newspaper Governor Ellerbe will be, and ought to be, re-elected.

We further believe that men who seek the high and honorable office of Governor should wait for two years, unless they favor the restrictions placed upon the sale of liquor, and can answer all free silver questions satisfactorily to the silver men.

By waiting two years it is quite possible that these questions will be settled either by Congress, the Courts, or the people. With these questions out of the way the race will be a free-for-all race, without reference to either the dispensary or the silver question, It now seems that the silver question will die of old age or the lack of inanition. The dispensary question can't last always. The question before the expiration of two years.

It matters not how the questions may be settled. They will be settled, and then every citizen will have a fair chance at the public Believing, as we do, that Ellerbe will be re-

elected against, all opposition, it seems to be hear three speeches which are so appropriate suicidal to enter the race for Governor against him. He will be out at the end of the next term. Some one else will then be sure to get the place. With the dispensary and silver business out of the way, we may then expect an open field and fair race.

The Public Printing.

There has been some remarks about the public printing, and perhaps some thinking that has not been registered. Newspapers in the past have been free to say unkind things of the Register in reference to the printing. Now there has been some talk, or hint, or insinuation about the State newspaper, but that paper gives the brethren notice to stop. Speaking for ourself, we believe the office of

public printer is a legitimate one-just as much as much as any other office. We believe that a fair price should be established for the work, and then the printer should be elected by the Legislature.

There are many considerations outside of cheapness. The printer is, perhaps, the most important officer of the Legislature. If he so wills it he may, by neglecting or delaying the printing, defeat the will of the Legislature. The printer ought to be elected by the faction in power. This refers to the daily work while the Legislature is in ses-The permanent work, or the reports of the

different State officers, might se given out to the lowest responsible bidder. We don't let out the collection of taxes to

the lowest bidder, but we pay a fair price for the work. As well as we understand the matter, the

price now paid for the printing is low enough, and we do not envy any man the job. We wouldn't undertake the work, if it were

The sale was not without its serious side. abandoning his store and shop was in striking contrast with the action of the rich man disciple of our Great Exemplar.

Mr. Lawson, upon conscientious conviction the Master, and in the ranks of the ministry there is not one mere sincere or more honest than James M. Lawson. He has the respect of this people, who sympathise with him in conscientiously surrendering everything to enter upon the work of preaching a living

gospel to a dying people. He and his good wife leave the homes of their birth, and depart from the land of their fathers to go out into the world to bear to a

to see a paper that does not seek to despoil gentlemen and honorable citizens of their good name. The honorable courteous conduct of the gentleman in South Carolina should be more effective than the methods of the bully; and the man that would build up is more to be admired than the act of those whose chief aim it is to discover faults and foibles, and then straightway to magnify them into great crimes, without furnishing the proof to sustain the charges.

Honest Journalism.

The need of this country is honest journalism-a true index to passing events.

We have in mind two circumstances, which lead us to have little faith in some of our contemporaries.

One newspaper recently bragged that there had been a case of yellow fever, or small pox in town; that the aforesaid newspaper knew of it, and boasted that the existence of the disease was concealed.

If a newspaper will conceal the fact of the existence of such disease as small pox, for no other reason than to make money itself, or to save money or business to the city, what is the moral integrity of such a paper worth? If a newspaper will conceal facts in the hope of gain, would it not do other improper things, under the tempting influence of money?

From our standpoint, the newspapers that would conceal such facts as the presence of small pox, in their own city, while parading the existence of vellow fever in other cities stands in no enviable light as to truthfulness and high integrity.

We Should Have a Primary. Let the people speak their sentiments, and then let the Governor respect their wishes. There will be a vacancy in the Auditor's of-fice, and the people should vote for the man

TRIBUTE OF RESPECT.

To the Memory of the Late Hon. James S. Cothran-Resolutions by

the City County of Abbeville. Whereas, the City Council of Abbeville has heard with profound regret of the death of our distinguished fellow-citizen, Hon. James S. Cothran which sad event took place in the city of New York, on December 5th, and whereas he was long one of our most distinguished men and it is proper to attest our admiration and regard for him,

Be it resolved 1st, That the City Council of Abbeville feels that our people have lost their nost distinguished and honored citizen and the State of South Carolina one of her truest

Resolved 2nd, That the death of James S Cothran has removed from us one of the most prominent figures of Abbeville and left blank that will be difficult to fill. Resolved 3rd, That he faithfully met all the duties of life as a gallant soldier, a profound lawyer, an able editor, a just judge and s

patriotic citizen. Resolved 4th, That a copy of these resolu tions be sent to the family of the deceased, that a page in our minutes be inscribed to his memory and that these resolutions be

published in the city papers. L. H. Russell, J. C. Ellis, J. F. Miller, Committee.

Good Speeches.

The Press and Banner thanks Col. G. McD. Miller for a copy of the addresses delivered before Camp J. Foster Marshall at Ninety-Six. October 17, 1897, by Captain R. F. McCas Courts or Congress will certainly settle that lan, Colonel J. Q. Marshall, and Rev. F. O. S. Curtis, on the presentation of a portrait of Colonel J. Foster Marshall to the camp by his

> proprieties. It is seldom that we read or and becoming to the occasion.

We knew Captain McCaslan as a soldier of the Lost Cause, and can vouch for him in peace as well as in war.

Colonel Marshall, son of the officer whom the Camp would honor, is a public spirited and enterprising citizen of Columbia. He was born at Abbeville, but when he reached the years of manhood, he sought a wider field for usefulness.

We do not know Rev. Curtis personally. His speech entitles him to rank high with his fellow-man. It is so rare that a preacher fails to show his gear marks, and in their funeral orations it is so seldom that ministers of the gospel fail to deify ordinary clay, that we must believe the Rev. Curtis to be a man out of the ordinary. Atany rate the little book is worth reading

As a tribute to one of Abbeville's most useful men-J. Foster Marshall-it is just and true. Abbeville furnished many brave and patriotic men who took up arms in defense of Southern Rights, and many of them, like Marshall, yielded their life in the struggle. Among the survivors none were more distin guished for all that makes the ideal soldier and the efficient commanding officer than Colonel George McDuffle Miller.

True to the battle flag-loyal to the Church of our Saviour. Courageous in conflict-gen tle in camp. Colonel George McDuffle Miller is true to

his country, true to his fellow-man, true to his church, and true to his God. But to crown the whole: He is an honest man-honest in thought-honest in speech

honest in action. An honest man being the noblest work of God, nothing better could be said of any man.

Dr. Grier's Ill Health.

The people of Abbeville county will be very orry to hear that Rev. W. M. Grier, President Rev. James M. Lawson sold his household of Erskine College, has been over worked goods at public auction yesterday. The sale and is now advised by his physicians that absolute rest is necessary for restoration to his ture brought as good a price as could have wonted health. Dr. Grier is a leader in all been expected. The books of his library were that pertains to the welfare of the Associate sold in small lots, or singly. Big Crowd in Charleston.

Twelve thousand persons were carried to Charleston during the Gala Week, which has just closed. This shows what Charleston can their birth, and depart from the land of their fathers to go out into the world to bear to a sin-sick people the glorious tidings of the saving grace of our blessed Saviour.

Viewing it, as we do, and from the standpoint of one who has less zeal than he has, we can but iteel a sense of sadness for their course in giving up everything temporal for the sol purpose of trying to advance the spiritual interests of others.

The sacrifice which they make is greatfand we can only hope that He who dispenses good and perfect gifts may bless them even as His beloved children. What more can a man do, than to give up everything?

The Christian Advocate.

It is a pleasure to read the Southern Christian Advocate, which paper has lately made its appearance at the Press and Banner office.
